

MAFAAZ SHAYAN M

B.E Graduate | Software Developer (Fresher) | Java & Cloud Enthusiast

mafaazshayan@gmail.com | +91 9442729701 | [linkedin.com/in/mafaaz-shayan](https://www.linkedin.com/in/mafaaz-shayan) | <https://github.com/shayan-304> | Chennai, India

OBJECTIVE

To work in a progressive Environment with better Opportunities & career growth where I could interactively use my education, professional experience & interpersonal skills. To build career in a growing organization, where I can get the opportunities to prove my abilities by accepting challenges, committed to delivering quality solutions and fulfilling the organizational goal.

TECHNICAL SKILLS

Programming Languages: Java, Core Java, OOP in Java, Basics of python, SQL

Web & Cloud Technologies: Microsoft Azure, Azure SQL, Cloud Computing, Web Development (HTML/Wix)

Databases: SQL, Microsoft Azure SQL, Basic Database Management

Tools & IDEs: Eclipse, Visual Studio, MS Office Suite, Excel, MATLAB, Adobe Acrobat, Canva

Concepts & Domains: Object-Oriented Programming, IoT, Cybersecurity, Data Science, Networking (Basic)

Soft Skills: Problem Solving, Team Collaboration, Technical Documentation, Communication

EDUCATION

B.E. – Electronics & Communication Engineering

2022 – 2026

Panimalar Engineering College, Anna University, Chennai | CGPA: 7.75 / 10.0

HSC (Class XII) – Vidhya Lakshmi Matric Hr. Sec. School, Katpadi.

(2022)

SSLC (Class X) – Vidhya Lakshmi Matric Hr. Sec. School, Katpadi.

(2020)

CERTIFICATIONS

- Java Programming for Beginners & OOPs in Java – Simplilearn SkillUP
- Web Development with Wix & Microsoft Azure SQL – Coursera
- Applied Cloud Computing – TCS iON
- Cybersecurity Fundamentals & Data Science for Beginners – NASSCOM

PROJECTS & PUBLICATION

IoT-Based Real-Time Monitoring System for Fisheries

NCETECCT 2024 – Paper Publication at National Level Conference

- Presented a research paper at the National Level Conference (NCETECCT 2024) on Emerging Trends in Electronics, Communication & Computing Technology, focusing on an IoT-based fishery monitoring system for real-time water quality, temperature, and environmental parameter tracking with automated alert mechanisms.

Anti-Sleep Driver Alarm System for Accident Prevention

Mini Project

- Developed an embedded sensor-based alert system to detect driver drowsiness in real time and trigger audio alarms, improving road safety.

Radar Detection System using Arduino & Ultrasonic Sensors

Mini Project

- Built a radar prototype to detect, measure, and display positions of nearby objects using Arduino microcontroller and ultrasonic sensors with graphical output.

Smart Hire AI | Java · Spring Boot · Groq AI · Docker | github.com/shayan-304/smarthire-ai

- Built and deployed an AI-powered resume analyzer using Java 17, Spring Boot & Groq LLaMA 3.3 70B with PDF/DOCX parsing, REST APIs, and Docker on Render.com

INTERNSHIP & INDUSTRIAL TRAINING

In-Plant Training – Chennai Port Authority (EDP/IT Department)

Vocational Trainee

- Gained exposure to IT infrastructure, Electronic Data Processing systems, and industrial automation in a large-scale port authority environment.

Chip-Level Testing & Debugging – New Technology, Coimbatore

Certified Training

- Completed training in hardware diagnostics, chip-level testing, and debugging techniques for all mobile device categories.

WORKSHOPS & ACTIVITIES

- 5-Day FDP on Cybersecurity – 'Cyber Safe' – Shiv Nadar University, Chennai.
- Optimization Techniques for Real-Time AI Applications using Cloud Services & Sensors and IoT for Smart Healthcare. – SRMIST.
- Coordinator – Hands-on Workshop on Robotics and Automation.
